EXECUTIVE SUMMARY

Operations and transformation leader with 11+ years taking complex programs from strategy through execution, and 8 years applying Lean Six Sigma to process improvement. Led 31 team leaders responsible for an organization of more than 300 employees across APAC, LATAM, EMEA, and the U.S., driving operational performance, workforce planning, and service delivery governance. Directs enterprise ERP and systems programs across Oracle, SAP, Workday, and NetSuite alongside operational transformation and cross-functional delivery in BPO, SaaS, ecommerce, and enterprise environments. Lean Six Sigma Black Belt and PMP, with AI and workflow automation as a competitive edge applied where it removes real operational cost. Owns outcomes, not just tasks.

CORE CAPABILITIES

Operations & Delivery: Operations Leadership, Delivery Governance and PMO, Change and Transformation Management, Workforce Planning

Systems & ERP: Enterprise ERP (Oracle, SAP, Workday, NetSuite), Systems Integration, ERP and CRM Implementation

Method & People: Lean Six Sigma (Black Belt), Business Process Improvement, SOP and Operating-Model Design, Cross-functional and Multi-region Leadership, Executive and Stakeholder Alignment

Automation: AI and Workflow Automation (n8n, Workato), applied where it removes operational cost

SELECTED OUTCOMES

- Led 31 team leaders responsible for an organization of more than 300 employees across APAC, LATAM, EMEA, and the U.S., driving operational performance, workforce planning, and service delivery governance.
- Ran enterprise ERP programs from planning through rollout, owning delivery governance, system stability, and stakeholder alignment across concurrent workstreams.
- Led a 30-person Oracle ERP Level 3 support team to SLA compliance through structured incident and problem management.
- Kept 10+ EDI transaction types flowing across trading partners and made systems-integration delivery repeatable rather than dependent on one person.
- Built AI-assisted automation across order-to-cash and accounts payable that removes manual cost from core processes, applied only where it earns its place.

PROFESSIONAL EXPERIENCE

Principal Consultant, Operations & Transformation | [Kairion Group](#) 2020 - Present

- Established and lead an independent operations and transformation consulting practice, delivering ERP, systems, and process-improvement engagements to clients globally.
- Advise executives from diagnosis through go-live, building the operating models, SOPs, and governance that make teams run.
- Apply automation (n8n, Workato) across order-to-cash, accounts payable, and support where it removes manual cost, as one capability within broader delivery.

Business Consultant | [CEF Solutions Inc.](#) 2023 - Present

- Deliver consulting across enterprise clients in BPO, contact-center, and service-driven environments, running operational assessments, workflow redesigns, and operating-model improvements from diagnosis through implementation.
- Lead process evaluations that identify gaps and design data-driven solutions to improve efficiency, service delivery, and performance.
- Manage concurrent engagements, owning scope, delivery milestones, and executive stakeholder alignment.

System Integration Manager | [Waiakea](#) 2025 - 2026

- Led end-to-end integrations across NetSuite, Shopify, SPS Commerce, RF-Smart, Celigo, and 3PL and WMS partners.
- Owned EDI flows (850, 855, 856, 810, 940, 945) and resolved failures across the order-to-fulfillment lifecycle.
- Designed, tested, and improved Celigo integration flows, supported NetSuite configuration and data accuracy, and documented processes so delivery no longer depended on one person.

Senior ERP Manager | TELUS International Philippines 2023 - 2025

- Directed enterprise ERP operations and delivery across Finance, HR, and Technical functions, taking programs from planning through rollout.
- Owned delivery governance, system stability, risks, and stakeholder alignment across concurrent workstreams.
- Coordinated ERP integrations, upgrades, and customizations, and enforced data governance and security compliance.

Head of Customer Success | This Fish Inc. 2022 - 2023

- Led onboarding and implementation of SaaS products for global clients from kickoff through go-live, driving adoption through structured planning, training, and enablement.
- Managed enterprise relationships as the primary contact, improving satisfaction and mitigating churn.
- Built implementation playbooks, onboarding guides, and customer-facing documentation.

IT Service Delivery Manager (Part-time) | Fusion 5 2020 - 2023

- Ran multi-region IT service delivery to SLA and KPI targets, leading critical-incident resolution and root-cause analysis.
- Drove service improvements through ITIL and continuous-improvement frameworks, supporting budget planning and resource allocation.

Oracle ERP Functional Lead | Infosys BPM Philippines 2021 - 2022

- Managed ERP workstreams and releases across Finance, Supply Chain, and HR.
- Led a 30-person Level 3 support team to SLA compliance through structured incident and problem management.

ERP Consultant | Concentrix CVG Philippines 2018 - 2021

- Translated business requirements into ERP configurations and functional specifications across finance, order management, billing, pricing, and credit workflows.
- Ran gap analysis, upgrades, and migration planning for enhancements and version transitions.

IT Project Manager (Part-time) | Fusion 5 2018 - 2020

- Delivered end-to-end IT projects within scope, budget, and schedule, managing plans, risks, dependencies, and stakeholder communication.

Senior Application Development Support (Lead) | VXi Global Holdings Inc. 2016 - 2018

- Led a 25-member application-support team to SLA as primary escalation for complex ERP issues, mentoring the team for capability.

Application Development Support | VXi Global Holdings Inc. 2015 - 2016

- Supported multiple ERP platforms, resolving system issues and maintaining documentation to keep operations running.
