---

## EXECUTIVE SUMMARY

---

Operations and delivery leader with 11+ years taking complex programs from strategy through execution, and 8 years applying Lean Six Sigma to process transformation. Runs ERP and systems implementations across SAP, Oracle, Workday, and NetSuite, alongside operational transformations and cross-functional delivery spanning BPO, SaaS, ecommerce, and enterprise environments across APAC, LATAM, EMEA, and North America. Sets the roadmap, builds the systems and SOPs that make teams run, and stays close enough to the work to unblock it. Lean Six Sigma Black Belt and PMP, now building AI-assisted workflow automation that removes manual cost from core business processes. Brings structure to ambiguity and owns outcomes, not just tasks.

## SELECTED ENGAGEMENTS

---

### Systems Integration at Scale - Waiakea (Ecommerce / CPG)

Led end-to-end delivery across 7+ enterprise platforms including NetSuite, Shopify, SPS Commerce, RF-Smart, Celigo, and multiple 3PL and WMS partners, keeping 10+ EDI transaction types flowing across trading partners. Rebuilt Celigo automations and standardized integration processes, removing recurring manual work from the order-to-fulfillment lifecycle and documenting it so delivery no longer depended on one person.

### ERP Program Leadership - TELUS International

Directed enterprise ERP operations and delivery across Finance, HR, and Technical functions, taking programs from planning through rollout while owning delivery governance, system stability, and stakeholder alignment. Coordinated ERP integrations, upgrades, and customizations to optimize core business processes across concurrent workstreams.

### AI-Powered Order-to-Cash Automation - Kairion Group (Current)

Built an AI-driven order-to-cash workflow in n8n and Workato that validates orders from ecommerce and marketplace channels including Shopify, BigCommerce, Amazon, and eBay, syncs customer and order data across CRM and ERP, checks inventory, triggers fulfillment, generates invoices, sends notifications, and reconciles payment automatically, with an AI layer that catches exceptions like payment failures and stockouts and routes them with full context. At volume, removes the equivalent of 1 to 5 full-time roles and hundreds of labor hours a year while cutting order errors and freeing operations to handle only exceptions.

### SaaS Onboarding and Retention - This Fish Inc.

Led onboarding and implementation of SaaS products for global clients and built the implementation playbooks and onboarding guides the team ran on, managing relationships to drive adoption and reduce churn.

## CORE EXPERTISE

---

**Operations and Delivery:** Operations Leadership, Program and Project Management, Delivery Governance and PMO, Change and Transformation Management

**Systems and Automation:** ERP and CRM Implementation, Systems Integration, Process Automation (n8n, Workato), AI-Assisted Workflow Design

**Method and People:** Lean Six Sigma (Black Belt), Business Process Improvement, SOP and Operating-Model Design, Executive and Stakeholder Alignment, Vendor and Contract Management, Remote Cross-functional Leadership

## PROFESSIONAL EXPERIENCE

---

### Founder and Principal Consultant | Kairion Group

2020 - Present

- Founded and run a Philippines-based consulting, technology, and talent firm serving clients across the US, Canada, and Australia, built on operations, systems, and process-improvement delivery.
- Build AI-assisted automation in n8n and Workato across order-to-cash, accounts-payable invoice processing, procure-to-pay, and customer support, connecting CRM, ERP, and inventory to remove manual work and errors, with outcomes such as 60 to 90% lower invoice-processing cost and 40 to 80% support-ticket deflection.
- Developed AI workflows for lead-to-revenue and 24/7 customer support, plus an AI project-management assistant that turns a client brief into plans, schedules, and status reports in minutes.

### Business Consultant (Part-time) | CEF Solutions Inc.

03/2023 - Present

- Deliver consulting across multiple enterprise clients in BPO, contact-center, and service-driven environments, running operational assessments, workflow redesigns, and operating-model improvements from diagnosis through implementation.
- Lead process evaluations that identify gaps and design data-driven solutions to improve operational efficiency, service delivery, and performance, and establish service-level standards across cross-functional teams.
- Manage several engagements concurrently, owning scope, delivery milestones, and executive stakeholder alignment on each, and build SOPs and process frameworks that teams actually adopt.

**System Integration Manager | Waiakea**

02/2025 - 02/2026

- Managed end-to-end integrations across NetSuite, Shopify, SPS Commerce, RF-Smart, Celigo, and 3PL and WMS partners, coordinating internal teams and vendors to keep orders, inventory, fulfillment, and returns moving.
- Owned EDI flows (850, 855, 856, 810, 940, 945) and resolved integration failures across the order-to-fulfillment lifecycle, improving delivery reliability by monitoring automation workflows and fixing breakpoints.
- Designed, tested, and improved Celigo integration flows, supported NetSuite configuration and data accuracy, and documented processes so integration delivery no longer depended on one person.

**Senior ERP Manager | TELUS International Philippines**

03/2023 - 01/2025

- Led ERP operations and end-to-end project delivery across Finance, HR, and Technical functions, directing cross-functional teams from planning through rollout while keeping systems stable and aligned to business requirements.
- Coordinated ERP integrations, upgrades, and customizations to optimize core processes, and owned delivery governance including risks, dependencies, and go-live readiness across concurrent workstreams.
- Partnered with stakeholders to define requirements and implement enhancements, and enforced data governance and security compliance across ERP configurations and workflows.

**Head of Customer Success | This Fish Inc.**

02/2022 - 02/2023

- Led onboarding and implementation of SaaS products for global clients from kickoff through go-live, driving adoption through structured planning, training, workshops, and enablement.
- Managed enterprise client relationships as the primary point of contact, improving satisfaction and mitigating churn, and partnered with sales, engineering, and support to deliver tailored recommendations.
- Built implementation playbooks, onboarding guides, and customer-facing documentation, and drove change management and continuous improvement from feedback and usage data.

**IT Service Delivery Manager (Part-time) | Fusion 5**

05/2020 - 12/2023

- Ran multi-region IT service delivery to SLA and KPI targets, leading critical incident resolution and root cause analysis, and drove service improvements through ITIL and continuous improvement frameworks.

**Oracle ERP Functional Lead | Infosys BPM Philippines**

06/2021 - 09/2022

- Managed ERP workstreams and releases across Finance, Supply Chain, and HR, and led a team of 30 Level 3 support specialists to SLA through structured incident and problem management.

**ERP Consultant | Concentrix CVG Philippines**

05/2018 - 06/2021

- Translated business requirements into ERP configurations and functional specs across finance, order management, billing, pricing, and credit workflows, and ran gap analysis, upgrades, and migration planning.

**IT Project Manager (Part-time) | Fusion 5**

04/2018 - 04/2020

- Delivered end-to-end IT projects within scope, budget, and schedule, managing plans, risks, dependencies, and stakeholder communication.

**Application Support Lead | VXI Global Holdings Inc.**

07/2016 - 04/2018

- Led a 25-member application support team to SLA as primary escalation for complex ERP issues, mentoring the team for capability.

**Application Support Analyst | VXI Global Holdings Inc.**

10/2015 - 07/2016

- Supported multiple ERP platforms, resolving system issues and maintaining documentation to keep operations running.
